The New *Common* Brandmark

CRYSTAL
BOHEMIA

In 2020, Crystal BOHEMIA expanded to include Crystalite Bohemia, and therefore it was necessary to create not only a new common brandmark, but a whole visual identity.

We believe that combining the best elements from the two original brandmarks thus represents a symbolic combination of the best of both companies.

CRYSTAL
BOHEMIA

Dazzling brilliance. Exceptional clarity.
Attractive design. The main advantages of
crystal created for generations in our factories.

A place
where *beauty*
is created.

Our Technologies

Crystal

Brilliance, glitter, high index of refraction, high quality processing and technology are the basic attributes of products made from 24% lead crystal produced in Poděbrady.

Long lasting tradition, design creativity, wide product range, flexible production and technology and consumer confidence belong among the principal features of successful operation of our both factories.

Stamps

To ensure that our customers really buy our famous crystal, we provide it with following stamps.

Crystalite

Our glassworks in Světlá nad Sázavou adds titanium to its glass melt to increase the durability of the glassware. As a result, our glasses are more resistant against mechanical defects and do not turn grey after multiple cycles in a dishwasher.

We guarantee the preservation of glass transparency even after the use of standard dishwasher programs. This innovation and the resulting quality have helped place Crystal BOHEMIA among the world's most successful glassware producers.

The whole assortment is labelled with our traditional oval stamp.

For lead crystal, it is accompanied with a round label of 24% PbO.

At the customer's request, a previous rectangular or round label is possible.

Collection *Groups*

Our assortment is divided into three groups according to its character. **Products from each group can be easily combined, due to similar features they will match.** Each group also has a different colour of packaging.

Timeless

Assortments of the most unique design, which will certainly become your favourite companions for a long time.

Modern

Modern shapes and modern design for modern lifestyle.

Traditional

Collection respecting traditional production, design and traditional look.

Traditional Packaging

The assortment, for which we want to emphasize its value, is packed in our traditional blue box. The gold etiquette on it represents a guarantee of the uniqueness of our crystal and all its excellent properties.

At the customer's request, a sandblasted sign is possible.

App

You can browse the wide range of our product range in the updated Crystal BOHEMIA app.

A new feature is now available. Items in the catalogue are provided with an EAN code. Use the app, simply scan the code and start purchasing.

DRINKWARE

Glassware, Jugs & Decanters

A unique moment with each sip. Wide range of beverage glassware for everyday use as well as for special occasions.

Skilfully designed and beautifully formed for every occasion and taste.

Volumes

The volume of decanters or jugs is derived from the last three digits of the thirteen-digit assortment code. Therefore, if there is 070, the expected volume is around 700 ml.

As we are not a manufacturer of packaging material, we reserve a 20% deviation from this value during production.
